Sir:

Prior to an Examiner's first Action in the above-identified application, please enter the following amendments:

IN THE CLAIMS

Please amend claim 9 (marked up version attached in Appendix), such that pending claims 1-14 are as follows:

An air bearing slider comprising:

a transducer for communicating with a disc; and

means for supporting the transducer so that the transducer is at a closest position with respect to the disc during flight.

2. A slider of claim 1 wherein the means for supporting the transducer comprises:

a composite slider body with a front portion composed of a first material and a rear portion composed of a second material, the slider body having an air bearing surface defined on a disc opposing face of the slider body, where the air bearing surface comprises the front portion and the rear portion; and
